

EMERGENCY NOTIFICATION AND WEATHER WARNING SYSTEM

Emergency Notification System:

The City of Longview has raised the bar in public safety services by providing a new Emergency Notification System, powered by CodeRED®.

This is an extremely fast communications service available for mass **Emergency Notifications** that can be sent to your home phone or cell phone. The CodeRED® system allows officials to alert you about missing persons, gas leaks, flooding, evacuations or other public safety issues occurring in your neighborhood.

Weather Warning System:

Additionally, the City of Longview has elected to provide residents with a limited subscription to CodeRED® Weather Warnings. This is a free service for Longview residents, and is available only to those that sign up for the Emergency Notification System.

Whether it's a tornado, flash flood, or other **severe weather warning** you can be prepared with an automatic notification sent directly to your home phone or cell phone.

3 Convenient Ways to Register
